

For Cleaning & Maintaining Floors

Designed to clean & maintain smooth, hard shiny surfaces; resin, terrazzo, marble, natural stone, concrete & vinyl.

The most cost effective cleaning pad on the market

- Up to 33% more diamond content, means greater metre coverage per hour.
- Double sided for double the life span & productivity.
- Environmentally friendly, using just water. No need for expensive chemical cleaners, waxes or polishes.

A user friendly complete cleaning system

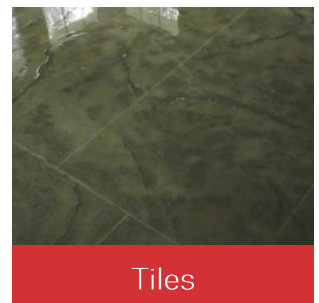

- Available in 3 sizes and 4 grades
- Easy to use & no fixings required, simply place under the machine and away you go.

Each pad will continually clean up to a huge 60,000m² in total, often lasting even longer!

Designed to fit the STG400, STG450, Burnisher 430 & most other surface texturing, auto scrubbing, burnishing and polishing machines.

Vinyl

Tiles

The system for floor cleaning & maintenance

For use with STG400, STG450 & Burnisher 430 and other cleaning and polishing machines.

Suitable on all smooth, shiny, hard surfaces including: stone, concrete, marble, terrazzo, vinyl, linoleum and epoxy resin / SL floors

Colour	Grade	Applications
	400	Heavy duty floor cleaning Deep cleaning of damaged, scratched floors, removing surface contaminants. Leaves a soft sheen
	800	General cleaning of heavily soiled floors Removing light scratches & staining from areas of heavy traffic. Restoring the floor back to its original condition. Leaves a light gloss finish
	1500	General cleaning of lightly soiled floors Most popular pad. For quick & effective maintenance. Leaves a gloss finish
	3000	Cleaning lightly used floors For areas of light traffic. Can be used for daily maintenance of a 'sound' floor where the ultimate shine is desired and needs to be maintained. Leaves a high gloss/mirror finish
