FEATURE OVERVIEW

We've redesigned our website to make ordering faster, easier, and more flexible, so you can get what you need, when you need it, with less hassle.

Here's a quick overview of what's new and how it helps you work more efficiently.

Improved Favourites

You can rename or delete lists and move items between them, giving you complete control and keeping everything neat and easy to access. You can also add items to your basket directly from your favourites lists, making ordering even faster and more convenient.
